

# Ayisha Fabin

Full Stack Developer in Python-Django

 +91 8943514313 ayishafebin2001p@gmail.com  Calicut, KERALA  
 Ayisha Fabin

## Profile

Full-Stack Developer with expertise in Python, Django, and modern web technologies, experienced in building scalable, secure, and user-friendly web applications. Skilled in both frontend and backend development, API integration, and third-party services (e.g., Razorpay, Google Authentication). Quick learner, detail-oriented, and committed to delivering high-quality solutions.

## Areas of Expertise

JavaScript, Python, Django , MVT ,CSS3, HTML5, Bootstrap 5, Shopify, ORM, Dialogflow, Razorpay, REST API, Dialogflow, GitHub, DTL, SQLite3, MySQL, PostgreSQL, Amazon Listing, Amazon FBA, WIX

## Professional Experience

**Python Django Full Stack Development (Intern) *(Zoople Technologies)* Kerala, India 09-2024 - 12-2024**

- Developed and maintained full-stack web applications using Python and Django framework, following MVC architecture to ensure clean and scalable code structure.
- Implemented authentication and authorization mechanism (OAuth) to secure user data and sessions
- Integrating third-party services and APIs
- Designed and implemented responsive user interfaces using HTML5, CSS3, Bootstrap, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated in an Agile environment using version control (Git) and task tracking tools like GitHub or Trello.
- Wrote and optimized database models using Django ORM, and performed queries on PostgreSQL/MySQL for efficient data storage and retrieval.
- Built dynamic forms and custom dashboards using Django templating engine and Bootstrap, improving user experience and interactivity.

**Web Developer and E-Commerce / Account Management *(B4BRAIN)* Kerala, India 10-2023 - Present**

- Developed and maintained responsive websites using Python, Django, React, HTML, CSS, and JavaScript, ensuring smooth functionality and enhanced user experience.
- Developing RESTful web services and APIs.
- Created and integrated RESTful APIs for internal and external services using Django REST Framework (DRF), allowing seamless communication between frontend and backend.
- Contributed to team meetings and provided input on design and technical decisions.
- Developed and maintained 3+ Shopify websites, improving SEO performance by 40%
- Managed e-commerce operations including product listings, pricing, order processing, and inventory on platforms like Amazon, Shopify
- Trained 30+ internship students on Shopify website management and product listing onboarding success across batches.
- Managed optimized Firstcry Seller Account to enhance sales.
- Integrated payment gateways and third-party shipping APIs to streamline checkout and logistics processes.

## **Education**

---

**BTech Computer Science and Engineering** *APJ Abdul Kalam Technological University Kerala, INDIA* 2020-2024

Relevant Courses: AWS Cloud Computing, CCNA Networking, Basic Artificial intelligence, Network security, Database Management, Oop in Java & Programming in C.

## **Skills**

---

- **Programming Languages & Frameworks:** Python, Django, Django REST Framework, JavaScript, HTML5, CSS3, Bootstrap , Shopify
- **Frontend Technologies:** Responsive Web Design, Django Templates, AJAX, jQuery
- **Database Management:** PostgreSQL, MySQL, SQLite, Django ORM , MongoDB
- **Version Control & Collaboration:** Git, GitHub, GitLab
- **API Development:** RESTful APIs, JSON, Postman, DRF (Django REST Framework)
- **Deployment & DevOps:** Docker (Basics), Linux Server Management
- **Testing & Debugging:** Unit Testing with PyTest/Unittest, Django Test Framework, Browser DevTools
- **Tools & Platforms:** VS Code, Postman, Figma (for UI Collaboration)
- **Area of Interest:** Full Stack Web Development, Scalable Django Architecture, Frontend-Backend Integration, Clean Code Practices, Code Optimization
- **Soft Skills:** Team Collaboration, Problem-Solving, Clear Communication, Adaptability, Time Management, Continuous Learning

## **Projects**

---

### **E-Commerce Jewellery Website**

- Developed a full-stack e-commerce platform for jewellery using **HTML, CSS, JavaScript** (frontend) and **Python Django** (backend).
- Implemented core features including product catalog, shopping cart, checkout system, and secure user authentication.
- Built an **admin dashboard** for managing products, categories, orders, and customer details efficiently.

### **Hospital & Patient Connecting System**

- Built features for patient engagement, including appointment booking, reviews, and a Q&A section to address health-related doubts in real time.
- Designed and developed an integrated platform enabling seamless sharing of patients' medical records and prescriptions across multiple hospitals with secure patient approval via an Android app.

### **Student and Staff Management System**

- Implemented key features such as attendance tracking, performance evaluation, leave request, exam results, and feedback system.
- Developed a centralized database to manage student and staff records, enabling efficient data storage, retrieval, and updates with role-based access control.
